

PECOS Release 7.57.0– Release Notes and Defect Fixes

Release Date: April 6, 2026

Release 7.57.0 of the Provider Enrollment, Chain and Ownership System (PECOS) includes the following enhancement for the PECOS Provider Interface (PI).

Enhancements for the release include:

- Restrict users from adding more than one practice location for specific provider and supplier types.
 - 855A: Federally Qualified Health Center (FQHC), Comprehensive Outpatient Rehabilitation Facility (CORF), Community Mental Health Center (CMHC), End-Stage Renal Disease Facility (ESRD), Hospital-based Organ Procurement Organization (OPO), Skilled Nursing Facility (SNF)
 - 855B: Independent Diagnostic Testing Facility (IDTF), Portable X-Ray Supplier (PXRS), Intensive Cardiac Rehabilitation (ICR), Ambulatory Surgical Center (ASC)
- Add a required **“Review Complete”** button in the Surety Bond Topic during reactivation to ensure DMEPOS suppliers confirm their information is accurate before proceeding.
- Updates to PECOS PI to require an Electronic Funds Transfer (EFT) in all scenarios when EFT information does not already exist on the enrollment. The only exception being for providers who fully reassign their benefits. The updates are made to 855A, 855B, 855I, 855S, and 20134 (Medicare Diabetes Prevention Program (MDPP)) forms in PECOS PI
- Updates to provide a list of surety bond companies from the US Treasury list of surety bond companies when adding a surety bond or surety bond company.
- Updates to PECOS PI to **not** prompt a required error message if Active License Information is not available for ‘Hospice’ enrollments for states where license information is applicable for Change of Ownership (CHOW) workflow.

Defect fixes for the release include:

JIRA #	Description
PECOS-800885	855B AI- For group-initiated reassignments, the signature information for the individual reassigning benefits to the group is not showing in the Show Signatures for the L&T or in the ADR signature section even though all signatures are complete.
